## Wilo-Stratos ECO technical data.

### Wilo-Stratos Eco

**Areas of application.**  
Warm water heaters for all systems

#### Advantages.

- Highly efficient pumping for energy saving in energy efficiency class A
- Reliable starting and high comfort thanks to a high starting torque and anti-blocking software
- Easy adjustment, quick installation
- Standard heat insulation for heating applications

Pumpen Intelligenz.

Pumpen Intelligenz.

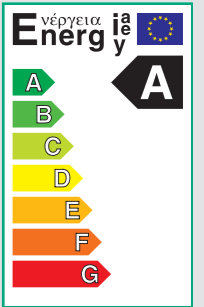

## Wilo-Stratos ECO high-efficiency pump.

Type overview.

## Wilo-Stratos ECO high-efficiency pump: Energy class A for private households.

Assigned to energy efficiency class A, the Wilo-Stratos ECO pump is designed for use in private households and reduces power consumption levels by up to 80%, like the Wilo-Stratos.

#### Pathbreaking.

- The Wilo-Stratos ECO is also equipped with the red button mechanism to optimize user-friendliness.
- A single button can be used to control all functions, including nighttime cutback and setpoint value adjustment.

- The Wilo-Stratos ECO has a starting torque 3 times higher than that of any other heating pump before.
- A new type of filter, perforated shaft and anti-blocking software prevent jamming of the rotor and shaft.
